Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, S.W.  
Washington, DC 20554

**Re: *Ex Parte* Presentation in IB Docket No. 02-364  
and ET Docket No. 00-258**

Dear Ms. Dortch:

On July 21, 2005, Dr. Jeffrey K. Okamitsu, Vice President – Technology, Fusion UV Systems, Inc., Stephen M. Ryan, Esq., and the undersigned met with Bruce Franca, Acting Chief, Office of Engineering and Technology, Geraldine Matisse, Deputy Division Chief, Policy and Rules Division, and Lisa Cacciatore, Patrick Forster, Jennifer Gorney, Howard Griboff, Shameeka Hunt, Paul Locke, Jamison Prime, Karen Rackley, John Ree and Alan Scime of the Commission's staff. The points made in Fusion's presentation are set forth in its earlier filings in the Dockets. Drawing from those filings, Fusion observed that its technology will not cause harmful interference to Broadband Radio Service operators. Handouts distributed during the meeting are attached to this letter. In addition, the Fusion representatives showed attendees examples of products made with Fusion's technology including golf balls, beverage containers, and DVDs, to name a few.

Pursuant to Sections 1.49(f) and 1.1206(b) of the Commission's rules, a copy of this letter and its attachments have been filed electronically.

Respectfully submitted,

*/s/ William K. Keane*

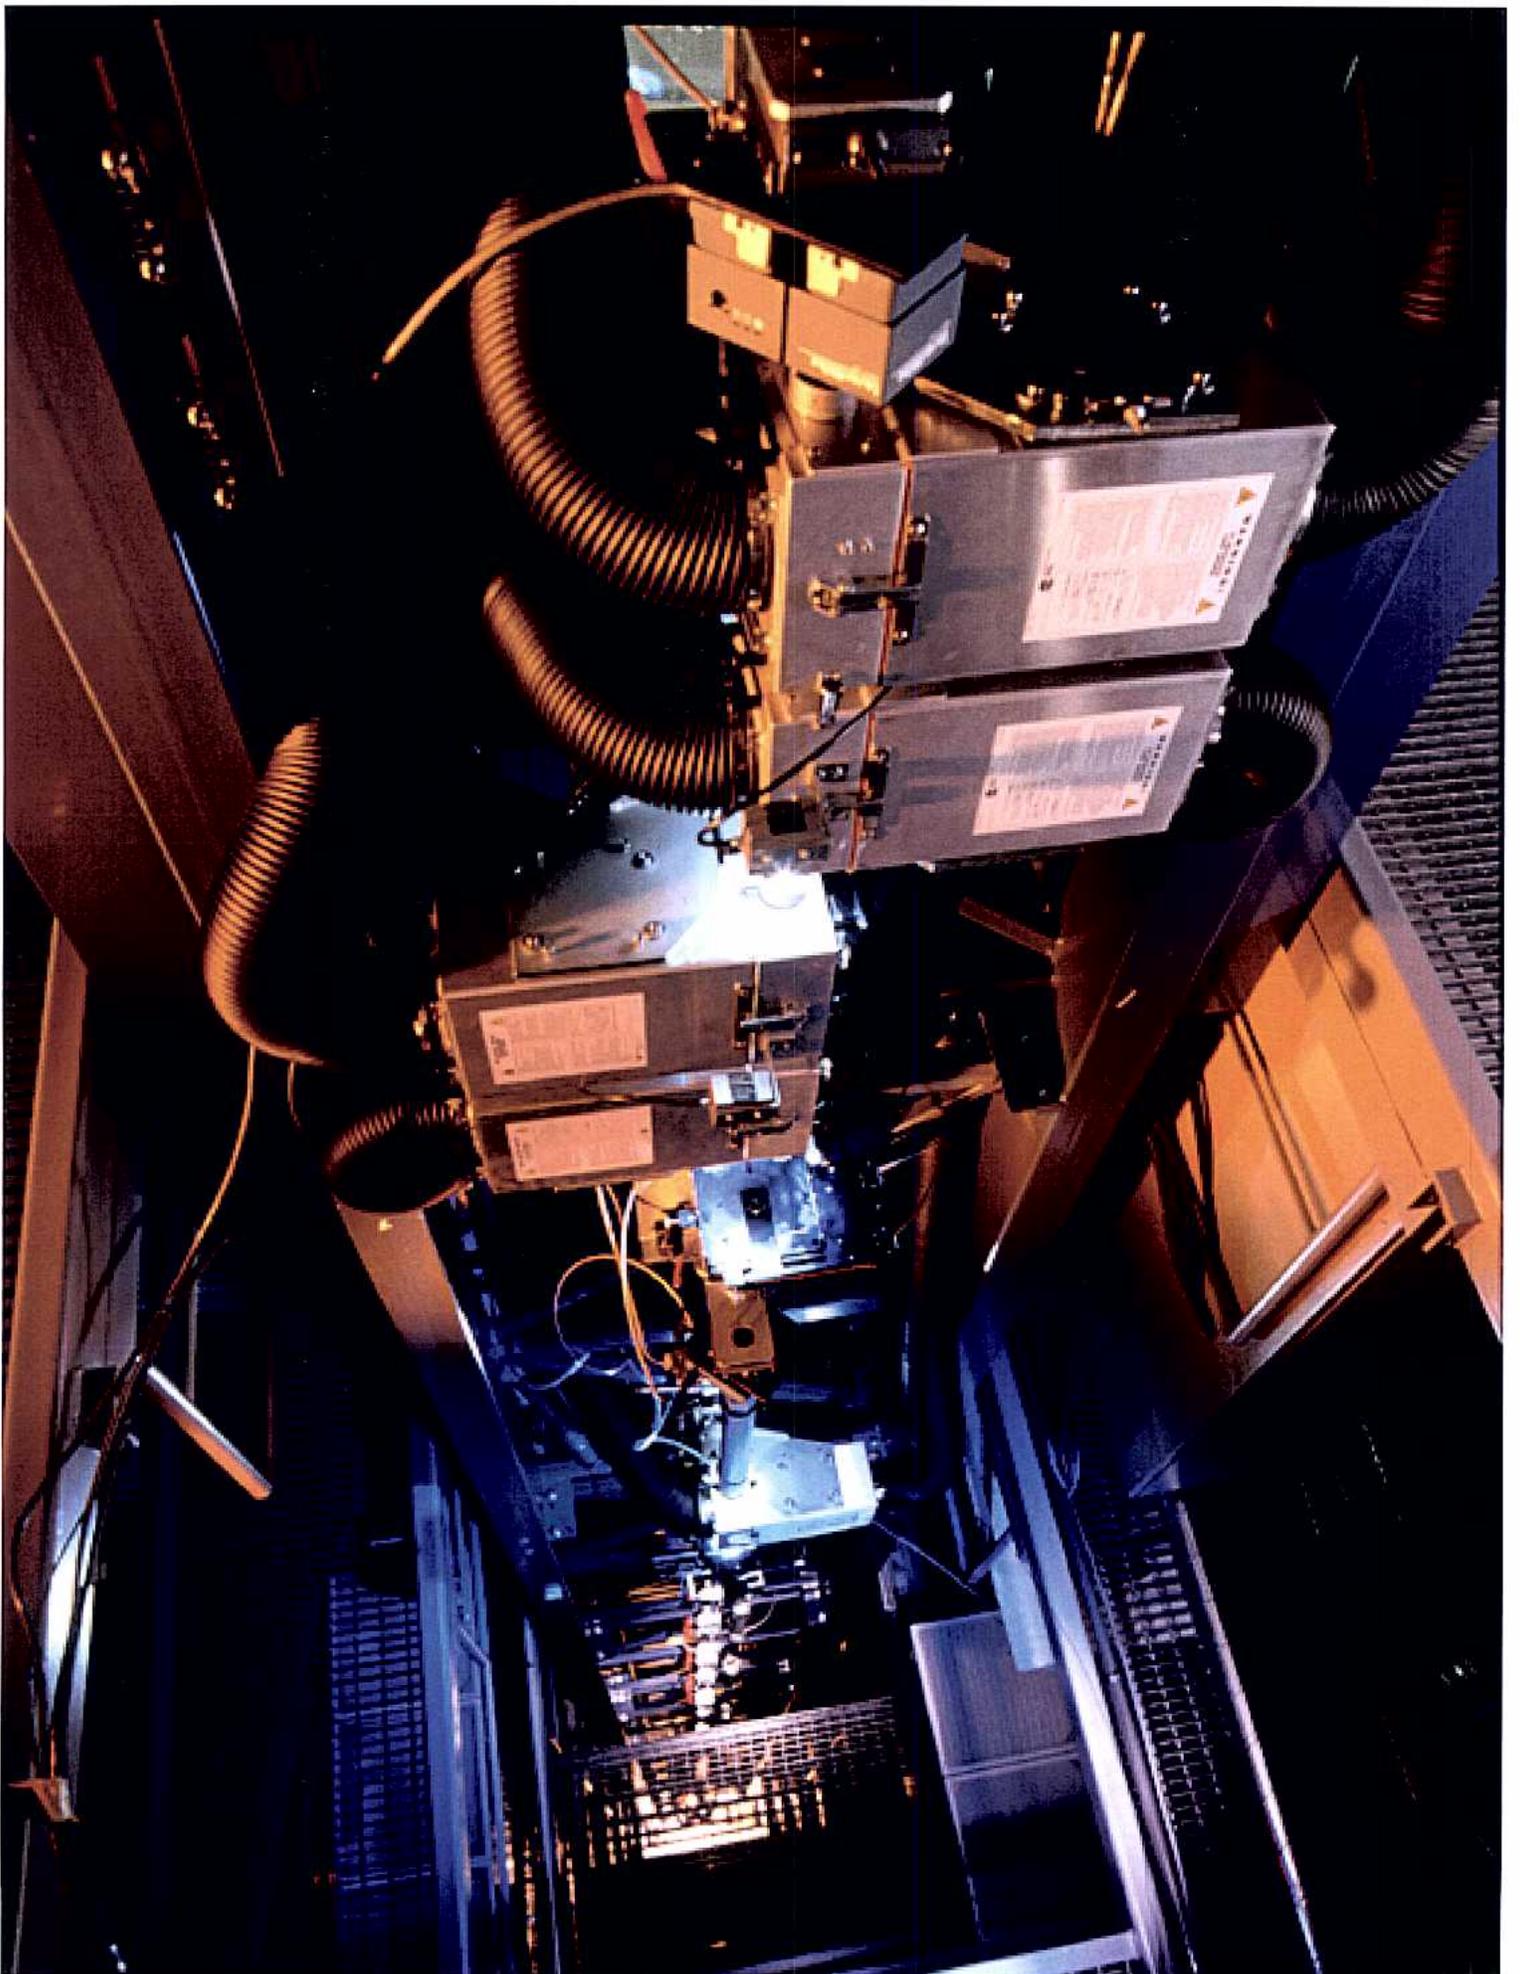

William K. Keane  
Counsel to Fusion UV Systems, Inc.
